

SUDEEP

PLASTICS PVT. LTD.

About Us

Sudeep Plastics is a well known and highly trusted name in plastics industry by making available a wide range of packaging solutions to the industry. It creates designs & produces innovative plastics packaging for **Homecare, Personal care, Food & Beverages, Chemicals, Pharmaceuticals & Lubes industry**. With the experience of more than 20 years in this industry, we can proudly say **"YES WE CAN DO IT"**.

Our value addition comes from selection of basic raw materials like HDPE, PP, PVC, LDPE & PET-G and thus transforming it in a rigid packaging material. From single parison to multi-parison options are available. Our current clients enjoy 2 things at a time, i.e. cost effective & timely deliveries. We very well understand "QUALITY" OUR FUTURE DEPENDS ON IT, hence 24x7 Lab works on total customer satisfaction & customer can prove our complete back traceability.

Management

Mr. Deepak Kapadia: Having a hands-on experience of more than 25 years, his dedication for machines and production lines has given tremendous results in terms of Quality and Consistency.

Mr. Jay Kapadia (B.Eng. Polymer Engineering - UK): Comes with vibrancy and has chartered the growth of business in new horizons. Constantly looking for innovation and cost cutting measurements.

The company is backed by a highly qualified, dedicated professional and technical team who are constantly working towards company's Growth.

Decorations

Decorations play an important role as important as dressing up for a party, Facilities to offer:

- Pad Printing
- Screen Printing
- Shrink Sleeving
- Hot Foiling
- Labeling
- Wadding

We make sure your packaging looks great in every occasion it goes. Premium Packaging includes **PET-G Bottles** & its great value addition. PET-G is also known for its crystal-clear see through effect.

Customers can gain an advantage to use their imagination of product design with us & we can transform it to a great packaging. We can offer solutions in Label (Sticker) development, corrugated box development and printing over boxes. We can also offer Green Products i.e. environmental friendly and multi use boxes. We can voluntarily offer Cost-Cutting operational strategies for your benefits.

Quality - Our Future depends on it

We believe in manufacturing and supplying the best quality. Hence, it has separate Quality Control Laboratory (QCL), situated on its each location. A separate Packing and Decoration section is made in its each location. QCL has all necessary equipments which are calibrated regularly.

- Complete Back-traceability
- On-line Quality
- Post Production Quality
- Acceptance Quality Limit(prior To Dispatch) / Pdi (Pre- Dispatch Inspections)

Quality Lab is an independent department in the organization.

Testing Equipments

Drop Test, Vacuum Chamber, Online leak-detectors, UV check testing, Gauge test, Stress-Crack test & Oven etc.

Innovation & Technology

- Multi- Parisons
- Parison Controllers
- Complex Shapes
- Insert Mouldings
- Handles & Grips
- Leak-proofness Guaranteed
- View Strips
- Optimum Weight Reduction
- Make Carbon-credit Your Tool
- Custom Labeling/ Decorations
- Blow Molded Monolayer Tubes.
- Stock Molds
- In House Designing
- Research, Recycle, Reduce, **3r's**
- Maximum Utilization Of Corrugated Boxes.

Machineries

Company is always looking forward in increasing its manufacturing capacities.

Machineries to make a difference are:

- Injection Molding
- Extrusion Blow Molding
- Injection Stretch Blow Molding

Please do not hesitate to contact us for any further information you may need. We are here to innovate for you. We want you to be assured for your packaging material requirements. Service level is all time high.
